Dim Sum

Cantonese small bite-sized food

SANDOSTINE

ABOUT US

Our Dim Sum factory is a food producer proud of our long standing reputation in the European market. With our two brands, we have more than 30 years experience. We are now offering more than 150 kinds of different products in the market. We provide traditional taste, by selecting the best local materials, aiming for the best quality. Our food is of the highest standard with HACCP certification and EG 195. Our team all has experience and expertise in food with varied Master degrees. We are highly regarded and we aim to stay that way and provide even more in the future.

CERTIFICATION

We are HACCP and EG195 certified. **Hazard Analysis and Critical Control Point (HACCP)** is an internationally recognized system for reducing the risk of safety hazards in food.

A HACCP System requires that potential hazards are identified and controlled at specific points in the process. This includes biological, chemical or physical hazards. Any company involved in the manufacturing, processing or handling of food products can use HACCP to minimize or eliminate food safety hazards in their product.

DIM SUM

Dim Sum is a style of Cantonese food prepared as small bite-sized or individual portions of food traditionally served in small steamer baskets or on small plates. Dim sum is also well known for the unique way it is served in some restaurants, whereby fully cooked and ready-to-serve dim sum dishes are carted around the restaurant for customers to choose their orders while seated at their tables. Eating dim sum at a restaurant is usually known in Cantonese as going to "drink tea" (yum cha), as tea is typically served with dim sum.

BAKERY

All our Bakery products are based on Hong Kong-style bread and cookies products, with additional Japanese, Taiwanese and traditional Chinese-style products. They are sold all over Europe and mainly in The Netherlands, Belgium, Luxembourg, France, Germany and the United Kingdom. After many years of development we have become widely acknowledged in Europe as the most popular Chinese bakery manufacturer.

Shelf life : 18 months

PACKAGING

We handle 4 different kinds of packaging for Dim Sum. We have small, middle and large black trays with transparent film containing a beautiful colored sleeve with a picture of the product, and loose bags. On the back of the sleeve you can find the “how to prepare” instructions in English. The ingredients, the “keeping advice” and the “after thawing not re-freeze” is also in the Spanish language on the sleeve. We can put a Spanish sticker with “how to prepare and to use” including “best before date” for free. But it based on your order quantity:

If you order for more than 20 cartons per product, we will produce the product especially for you, then we will put the sticker free for you on the package. But if you only order for few cartons per product, then we will only use our stock (which is frozen), for these frozen products we will put the stickers inside the box, and you need to put them on each package yourself. Due to it is too time consuming for us to take the product out of the freezer, open the box, and put on the stickers.

Small
