FROZEN VEGETABLES

SANDOSTINE

OUR HISTORY

Our factory is a family-run business whose roots date back to 1964. In 2 generations we have evolved from a local turkey slaughterhouse to an internationally renowned company, specializing in the production and packing of frozen food. Customers first got to know us as a leading producer of processing poultry meat. By now the our group exports its products to over 120 countries. Our professional approach and good reputation gives us the chance to expand our business activities with a wider product range of frozen products to our clients. In addition, we continue to invest and innovate in technological solutions (additives and processed proteins) which we offer to every customer in the food and feed industry.

Our international teams (in Belgium, Germany, U.A.E., Vietnam, Singapore, Brazil, India, Russia and Philippines) now cover all corners of the globe. We aim to build a strong relationship with our customers today, tomorrow and in the future! Our core business and focus however will always remain the same: producing and exporting frozen (Halal) food products, with respect for all ecological and environmental aspects.

Some of our strenghts:

- Top quality
- High stability, rehability of trusted partners
- Full service and support (turn-key project available)
- Over 50 years of experience
- HALAL

CERTIFICATION

We are active in the food industry. This is a sector governed by strict quality standards to which everyone must adhere. Every employee must respect these strict standards. Order, cleanliness and environmental awareness at work are fundamental aspects of the way you should perform your duties, whether in production or in the office. As already mentioned, for us quality is paramount. It therefore deserves a special section! The aim is to create a safe and healthy workplace for all employees, customers, visitors, partners and suppliers. Every employee will ensure to comply with the procedures relating to health and safety.
